

SUMMER ALL YEAR LONG WITH ORIGIN

With summer coming up fast many of us are looking for ways to improve the time we spend at home and with each other.

Origin's indoor swimming pool range allows you to capture the feeling of your summer holidays all year round and is the perfect addition to any home. The quintessential British aesthetic of the barn range is a blend of traditional style and modern ethical considerations. It gives you a swimming pool building with all the charm of a country barn conversion, blending in with your surroundings and emulating the countryside aesthetic, helping you get back to basics with nature.

Every element of the barn style can be tailored to suit your needs, whether you're looking to create a tropical oasis in your garden by using bi-fold doors that open up, inviting the outside in or by

putting together your own pool 'club house' and recreating that all inclusive feeling with a spa, sauna and swim up bar. Owning an Origin pool is about more than the pool itself, it's the lifestyle that comes with it, it's more important than ever to create space in your life for the people that mean the most and the barn style allows for that perfectly.

The barn pool house is also an energy efficient design due to the improved layers of insulation and as Origin want to help you put your best green foot forward, there is also an extensive variety of other green energy options available so you can have your dream swimming pool, do your bit for the environment and save on running costs.

The barn sits well in any rural garden setting as a design solution to finding space for an indoor pool. The selection of building sizes include different specifications and the opportunity to tailor your swimming pool house to your wants and needs, whether your pool is to be used for fun or fitness. If you want your pool house to be a place of wellness, the barn gives you the scope to add a gym, yoga room, juice bar or steam room and sauna.

Origin pride themselves on their ability to do it all, delivering on a project from concept to

completion whilst also being able to offer a wide variety of choice in design. Their other ranges include the new 'Eco-Swim', as well as bespoke, custom designs which often consist of extending homes to include a pool. These are widely used in more suburban areas when clients still want the luxury feel but don't necessarily have an abundance of garden space. The traditional barn style lends itself to the idyllic nature of the countryside but can work well in any environment, it's also designed to meet permitted development criteria so in most cases there's no need to worry about planning permission! Get ready for summer all year round and plan the perfect staycation with Origin. ■
